LATEST PROJECTS

szpital-trzebnica.pl

HTML CSS
WORDPRESS
LOGOTYPE SCRUM

St. Jadwiga's Hospital in Trzebnica

Remote work in a team of 5 using the scrum methodology. I created a logotype according to the patterns and guidelines for the vector file. I have designed geographic maps of each hospital floor with a map of directions. Also created the layout of the subpages.

HTML CSS
BOOTSTRAP
BRANDING

MD - Portfolio Website

I designed and developed a minimal and responsive portfolio using HTML5, CSS3, jQuery and Bootstrap. I created a logo (branding) and mockups for my graphic designs.

adwokat.stambulski.pl

HTML CSS
WORDPRESS
DESIGN

Michał Stambulski - counselor

Responsive website based on WordPress platform. I was responsible of designing the individual subpages and creating icons based on the client's guidelines.

marmal marmic.com

HTML CSS
WORDPRESS
BRANDING

Marmal & Marmic LTD

I designed the whole brand from the scratch. The logotype was created according to the client's design and concept. Responsive page has been implemented on cms Wordpress.

PERSONAL STATEMENT

A highly motivated and well organized professional with three years of experience in web development and graphic design. Hard worker with proven track record of both, high spec roles as well as the most humble jobs in case of such need. Tremendous attention to detail while making sure that all duties are carried out to meet the highest standards within deadlines. Formerly owner of a marketing agency, now a freelancer focusing on developing career and gaining more skills. Interested in opportunities as Front-End Web Developer.
